

**ENER-G FOODS, INC.**

Nov. 16, 2018

To Whom It May Concern:

The products bearing the Ener-G Foods name are produced in a manufacturing plant where no gluten containing ingredients are allowed. We do not allow any of the top allergens, gluten, dairy, soy, peanuts, tree nuts, fish or shell fish in our plant.

All of the items manufactured by Ener-G Foods Inc are suitable for patients suffering from Celiac, Dermatitis Herpetiformis and for those with intolerance to gluten.

We are a 100% Gluten Free Company.

We test our products in house for Gluten and they always come back less than 10 parts per million which is how low the test goes.

Thank you

Kathy Hoffman
